

FOR IMMEDIATE RELEASE: HERMTAC LLC wins prime spot on a VA \$40M Indefinite Delivery/Indefinite Quantity and Awarded Initial \$1.75M Task Order**Dallas, TX — 10/09/2024:**

HERMTAC LLC, a leading provider of internet and connectivity solutions, announced today a prime award on the Department of Veterans Affairs (VA)'s \$40M Indefinite Delivery/Indefinite Quantity (IDIQ) providing Low Earth Orbit (LEO) Satellite Internet Services. Beating out several other bidders, HermTac was one of three awardees, and the only small business awardee, and was also awarded the first task order, worth \$1.75M. This marks a culmination of several years of HermTac supporting VA's efforts to increase connectivity and access to high quality, reliable internet to the geographically dispersed organization.

Under this IDIQ, HermTac will support the VA Connectivity & Collaboration Services (CCS), Core Provisioning, Mobility Services (CPMS) team in their mission to provide high quality, effective, and efficient mobile device services to VA Medical Centers (VAMCs), Community Based Outpatient Clinics (CBOCs), field and program offices and other remote users that are geographically dispersed throughout the United States (US), Guam, Saipan, American Samoa, Philippines, and Puerto Rico. In particular, the LEO services and devices acquired under this IDIQ will support VA's disaster recovery, emergency management, and rapid deployment capabilities. HermTac will provide LEO satellite equipment, subscriptions, all transmission facilities, materials, travel, installation, and deinstallation/removal of hardware along with optional accessories, testing, maintenance, 24/7/365 monitoring and support for new mobile and fixed sites. HermTac will also provide validation assessment of coverage and operability of LEO Satellite Internet Services across VA's locations.

Kevin Patel, CEO, commented, "Our goal has always been to ensure that the VA has the necessary resources for accessible and scalable internet to deliver the highest quality care to our Veterans. We are thrilled to expand these efforts under this IDIQ and look forward to continuing our close collaboration with the VA, supporting them in achieving their vital mission."

This recent award comes three months after HermTac announced their selection by AFWERX for a SBIR Direct-to-Phase II contract in the amount of \$1,249,520 focused on (LEO + LTE SDWAN Systems) to address the most pressing challenges in the Department of the Air Force (DAF). Under that SBIR, HermTac is providing bonded multi-path Satcom plus 5G systems in support of Air Combat Command Advanced Battlefield Management Systems imperative enabling rapid movement without advanced notice for tactical communication.

About HERMTAC:

HermTac: We Get People Connected. HermTac is a Systems Integrator, Prime Contractor & Manufacture. Founded after winning most of The United States COVID Make-a-Thon Challenge.gov rapid prototyping competitions hosted by Veterans Affairs. We're focused on enabling the frontline to tackle connectivity pain points globally in any environment for our DoD, Veteran & Military Health Partner's Missions.
